The documents purpose is to provide a clear plan for the development of Wagga Wagga over the next 30 years. It is the plan that will direct and manage growth and change within the City.

Population growth is one reason why we need to plan for growth and change in Wagga Wagga.

“Wagga Wagga is a place where we all feel a part of our community, we are connected, we work together to achieve the things that are important to us.”

The plan is about ensuring everyone in the community feels a part of and involved in the community. It is also about ensuring we live in a safe and healthy community that accommodates growth.

There are a number of other fact sheets available containing more details about specific parts of the Spatial Plan.
