

### **Who is responsible for an Annual Fire Safety Statement (AFSS) and why?**

All building owners and property managers should be aware of their responsibilities for the maintenance of essential fire safety measures in their buildings, as outlined in the Environmental Planning & Assessment Regulation 2000. Clause 182 of the Regulation requires the owner of a building to maintain each essential fire safety measure in that building in accordance with relevant standards of performance, and those standards are usually nominated by Council in a previous Development Consent, Construction Certificate, or a previous Fire Safety Order that was issued upon that property.

This clause places ultimate responsibility for the maintenance of fire safety measures on the building owner. It is important that owners and occupiers realise that maintenance of their fire safety systems is not just a moral obligation or their duty of care, but more importantly is a legislative requirement as mentioned above. Apart from this, other vital reasons for maintenance are:

- To ensure safety of building occupants
- To continuously preserve the function and performance of fire safety systems and equipment
- To maintain and protect assets - proper preventative maintenance can save money
- To avoid business interruption and disruption to activities/operations in the event of fire

### **What should an Annual Fire Safety Statement contain?**

The NSW Department of planning has a standard fire safety statement form, which can be found at <http://www.planning.nsw.gov.au/Policy-and-Legislation/Buildings/Building-Regulation-and-Certification-Reform>. As outlined in clause 181 of the Environmental Planning & Assessment Regulation 2000 the following information must be included in the form.

- 1) the name and address of the owner of the building or part,
- 2) a description of the building or part (including its address),
- 3) a list identifying:
  - i) each essential fire safety measure in the building or part (for an annual statement), or
  - ii) each critical fire safety measure in the building or part (for a supplementary statement),
- 4) together with the minimum standard of performance specified in the relevant fire safety schedule in relation to each such measure,
- 5) the date or dates on which the essential fire safety measures were assessed,
- 6) the date on which the building or part was inspected,
- 7) the type of statement being issued (that is, annual or supplementary),
- 8) a signed declaration from the owner or someone acting on their behalf, that all fire safety measures, when assessed by a competent fire safety practitioner performed to the standard no less than specified on the fire safety schedule.
- 9) the date on which the statement is issued.
- 10) the name and contact details of the person who issued the statement,
- 11) the name and contact details of the competent fire safety practitioner who endorsed the statement.
- 12) The Fire safety statement must also be accompanied with a current fire safety schedule

An example of this form filled out can be found at [www.wagga.nsw.gov.au/city-of-wagga-wagga/planning](http://www.wagga.nsw.gov.au/city-of-wagga-wagga/planning)

Upon Submission of the Annual Fire Safety Statement along with the most current safety schedule, a copy should be forwarded to the Fire commissioner and another copy displayed in a prominent position within the building the statement applies to.

### **My building is currently vacant, do I still need to submit an Annual Fire Safety Statement?**

Yes, as outlined in clause 182 of the Environmental Planning & Assessment Regulation 2000, the owner of the building is required to maintain each essential fire safety measure to a standard no less than that specified in the fire safety schedule. Irrespective if a building is vacant, occupied or even partially demolished, the buildings Essential Safety Measures must be maintained and in working order at all times

### **Where do I find Australian Standards for the essential fire services located in the building?**

These can be found on the schedule issued to you by Council or on the fire safety certificate issued to you by your fire safety technician.

### **What are some of the re-occurring matters that restrict the issuing of compliance for the Annual Fire Safety Statement?**

- Defects listed on the fire certificate. These will need to be addressed and a new fire certificate submitted to Council stating that the defects have been rectified.
- The Annual Fire Safety Statement does not meet legislative requirements.
- The fire certificate indicates that only part of the building has been assessed. Either the certificate will have to be re-issued with the whole of the building being indicated or a letter stating why only part of the building was reported on.
- The Australian Standards and/or dates of assessment are not listed. These will need to be filled in and the form returned to Council.
- The Fire Safety Certificate was for the common areas only. Additional statements covering all units within the property will be required to be forwarded to Council.
- The assessment and inspection of an essential fire safety measure or building must have been carried out within the period of 3 months prior to the date on which the annual fire safety statement is issued i.e. if you submit your application on the 3<sup>rd</sup> December then the certificate must be dated within the 3 months before that date.

### **I have a current Construction Certificate for renovations to an existing building. Do I have to submit an AFSS?**

Yes. An Annual Fire Safety Statement is required for any existing class 2-9 building. The building must maintain the essential services that was listed on the current fire schedule or if no schedule available, in the building prior to the renovations.

Once the renovations are complete then the new fire schedule (issued in the Development Application Consent) will replace previous fire schedules.

### **How do I submit an Annual Fire Safety Statement to Council?**
